Next Steps

- 1. City Inspection**
- 2. Remove concrete and re-bar still in Piquette North Façade**
- 3. Fabricate and install steel reinforcements for wall along railroad property**
- 4. Install security fencing along east and west perimeters**
- 5. Paint north façade of the museum (over the white paint to match museum north façade)**
- 6. Paint block wall along railroad property**

Incredible Thanks To:

Note that names are listed alphabetically –

- **Mark Carpenter (onsite support)**
- **John Cole – Albert Kahn Associates (engineering support)**
- **Tim Drakeford - Direct Construction Services (our contractor)**
- **Steve Hinman – Albert Kahn Associates (structural engineer)**
- **Will Lawson (daily photos & helper in many ways)**
- **Paul Loveridge (engineering support)**
- **Doug Nowak (masonry & logistics)**
- **Scott Zuchlewski (videographer)**

Thank You So Much!
